Document Scanning

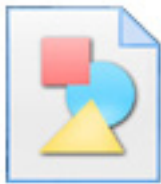

Let DSI Handle your Document Digitization Needs

Digital Scanning has over 17 years of experience in the field of document digitization. We have extensive experience handling and scanning rare and one-of-a-kind source material. Experts in projects big and small, DSI will work closely with you to determine the digital solution that best serves your needs.

What You Get:

A Complete Set of Images

DSI will provide you with a complete set of images in full color, grayscale, or bitonal, depending on the composition of the documents scanned.

Color Images

DSI can capture full-color images as JPEG. Color image files will be significantly larger than other options.

Grayscale Images

DSI can capture single pages or entire runs of documents in grayscale, with special care to ensure images are clear.

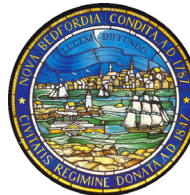

Bitonal Images

For pages of text bitonal scanning is the fastest, most space-efficient method.

Who We Work With

DSI works with organizations, businesses, governments, schools and laboratories, as well as individuals.

The City of New Bedford, MA

DSI is working to scan approximately 70,000 paper documents for the City of New Bedford.

New England Historic Genealogical Society

DSI scanned a 450,000+ card catalog and prepared several books for print-on-demand.

Harvard-Smithsonian Institute for Astrophysics

DSI scanned thousands of books and journals in a variety of sizes and bindings, some dating from the late 19th century.

Not Sure What You Need?

Digital Scanning will work with you to analyze your documents and create a personalized scanning process that will ensure your needs are met. With 17 years of experience and millions of documents processed DSI is prepared to take on projects of any size. Get in touch with us today to find out what we can do for you.
